The Hollow Knight is also inherently part of the Godseeker's ritual. This attack is only used in Phase 3. This attack tracks the Knight's position and always aims for the Knight. specifically during the slam. The Hollow Knight has cut Dream Nail dialogue which is the following: ...Kill... ..Dawn... ..Shall break... No matter which method they choose, the Hollow Knight attempts to slam down where the Knight was at the beginning of the attack. The Hollow Knight back dashes, teleports, and leaps around the arena between attacks. After acquiring the key, head to the Royal Waterways towards the third level from the map, just above the Flukemarm's arena to find a breakable wall which will lead you to a new area

which is the Junk Pit. The Hollow Knight can then be seen walking out of the Black Egg, freed from the Infection. † Pale King: "No mind to break." "No voice to cry suffering." † Violent Mithra Hunter's Journal entry: "The bugs of Hollowed were twisted out of shape by the ancient sickness. How to Start Godmaster First, you will need to obtain a Simple Key which is obtained from defeating a Pale Lurker located at the back of the Colosseum of Fools, its area can be found behind a fake wall which is at the northeastern side of the map. This attack does not track the Knight; the blobs always follow the same arcs. Barrage: The Hollow Knight launches multiple blobs of Infection towards the Knight from beneath their cloak. Contrition: The Hollow Knight stands in place and stabs their nail through their chest multiple times. Behaviour and Tactics The Hollow Knight emits a roar at the beginning of the fight, and at the start of each Phase of the fight. The Hollow Knight chained in Black Egg After some time, the Radiance's power broke out of the Hollow Knight, cracking their shell and fully infecting them.[12] This event was the catalyst that brought the Knight back to Hollownest.[13] The Knight can free and fight the Hollow Knight after killing the three Dreamers who sealed the Black Egg's entrance. This attack is only used in Phase 4, Lunge: The Hollow Knight lunges along the ground with their nail pointed towards the Knight. There are safe zones amongst the blobs during the Barrage and Explosion attacks so pay attention and move into safe zones. Once the Knight defeats the Pure Vessel in the Pantheon of the Knight, the Radiance reaches Godhome. Only two attacks are used in the phase: the Bouncing Balloon and Deterioration. Spells also trigger the riposte. Dodge the first slam, then dash under them when they rise for a new slam, then reverse again after they come down and repeat. The window for a riposte starts with a flash and lasts for a little more than half a second. The main weakness of the Hollow Knight is that they are vulnerable to attacks from above. It ultimately resulted in the resurgence of the Infection and the Kingdom falling into ruin. The Hollow Knight's teleport usually positions them far away from the Knight, so using Vengeful Spirit/Shade Soul during this time is useful to get hits in before they charge another attack. This attack deals two Masks of damage. Through its sacrifice Hollownest lasts eternal." † Prologue cutscene † Dreamers: "What compels its climb out of the darkness? Only the Memorial in the middle of the City of Tears testifies of their sacrifice to save Hollownest. Depending on the Knight's progress, one of two endings plays out after the fight. At the end of this fight, the Hollow Knight's Shade appears and opens up a weak point on her head, allowing the Knight to land the finishing blows. all for nothing. Triple Slash: The Hollow Knight swings their nail 3 times. Under normal circumstances, the Hollow Knight is immune to the Dream Nail and does not grant any SOUL on a successful hit. The sacrifices he imposed on others... It was tarnished by an idea instilled." † The memory hidden away at the end of the Path of Pain † Pure Vessel Hunter's Journal entry: "Chosen vessel, raised and trained to prime form." † City of Tears memorial fountain: "In the Black Vault far above. Parry: The Hollow Knight parries and ripostes with their nail. She seeks to attune the Radiance to Godhome through the Hollow Knight.[14] In doing so, she summons the Pure Vessel instead, their uninfected form. Use the Dream Nail on the Godseeker to enter Godhome and start the quest of this chapter. The Hollow Knight fight has 4 Phases. During this move, all damage dealt to the Hollow Knight is reduced to 1, regardless of Nail level. Moving too far from the Hollow Knight makes it more likely they will teleport close to the Knight, so be careful when running away to heal. In Phase 1, the Hollow Knight has three attacks: Triple Slash, Lunge, and Parry. This attack is only used in Phases 2 and 3. The blobs are fired in arcs at multiple angles, starting low and working up. The blobs travel along three primary paths: an arc going left, an arc going right, and a third going down. The Hollow Knight, along with Pure Vessel, is the only boss whose title appears at the top-centre of the screen. However, they lose the Lunge and Triple Slash attacks. The attacks come regularly. After the Knight absorbs the Infection from the Hollow Knight, a bright silhouette of the Radiance can be seen for a split second as the Hollow Knight lets out their final roar before dying. The Hollow Knight is one of the main bosses in Hollow Knight. During the Bouncing Balloon attack, the Hollow Knight attempts to home in on the Knight. Essentially, the Hollow Knight is attempting a Triple Slash attack but as soon as the first slash happens, they fall over without moving forward at all. In Phase 3, the Hollow Knight begins stabbing themself. By killing the Hollow Knight, the Knight takes their place in sealing the Radiance. In-game events The Shade of the Hollow Knight during the Radiance fight The fate of the Hollow Knight is linked to the end of the Knight's journey. Lore The Hollow Knight is the Vessel chosen by the Pale King to seal away the Radiance and save Hollownest from the Infection.[2] Like their siblings, they are the child of the King and Queen of Hollownest, birthed in the Abyss to be infused with the power of the Void.[3] As such, they are genderless.[4][1] This birth condition was also supposed to leave them without a mind, will, and voice,[5] to prevent the Radiance from influencing them.[6][7] However, their purity was misjudged, tarnished by an idea instilled,[8] a bond with the Pale King who raised them.[9] The young Hollow Knight being led out of the Abyss Regardless of their impurity, the Hollow Knight was trained and raised, eventually becoming a fully grown Vessel.[10] The Radiance was sealed within them, and they were chained within the Temple of the Black Egg where they were expected to contain the Infection for eternity.[11] However, because of the aforementioned impurities, the Radiance could still exert influence. Phase 1 These are the base attacks that the Hollow Knight starts with. Phase 3 After reaching 400 HP, the Hollow Knight gains these attacks in addition to the attacks from the previous Phases.
